

PAPER BAG PLATYPUS

What you need

- > Small lunch size paper bag
- > Piece of newspaper
- > Brown construction paper
- > Scissors
- > Glue
- > Stapler
- > Googly eyes or markers

How to make a paper bag platypus

1. Stuff a small piece of newspaper into the paper bag
2. Close the paper bag and fold the edges of the opening inward to make a point
3. Staple the two folded edges of the paper bag together in the centre
4. Cut out four webbed feet from brown construction paper
5. Cut out a beaver like tail from brown construction paper
6. Cut out a beak from brown construction paper
7. Glue two webbed feet to each long side of the paper bag
8. Glue the tail to the top edge of the bottom of the paper bag
9. Glue the beak over the staples at the folded edges of the paper bag
10. Glue googly eyes on or colour them on with marker
11. Use marker to make two nostrils on the beak
